RPG UI MASTER DESIGN SYSTEM

Premium pixel-art fantasy UI for GAME01. Portrait 9:16 first, landscape 16:9 second.

ONE KIT, EVERY SCREEN

Dark wood + charcoal foundations, forest green surfaces, muted gold trim, warm parchment for selected detail panels. Red HP, blue mana, green EXP. Press Start 2P text drawn by Unity, never baked into art.

UI PIXEL GRID

Portrait 288x512 UI px x2 = 576x1024
Landscape 640x360 UI px x3 = 1920x1080
World PPU 16, PPC 144x256 / 480x270 (x4)

DELIVERABLES

148 UI PNGs at 1x (transparent)
30 portrait + 8 landscape mockups
12 design-system boards
GAME01_UI_ASSET_MANIFEST.csv

Mockup data is sample data from WorldContent, LevelConfig and the class kits. Purple CONCEPT tags mark UI for systems that are only placeholders in the game today.

RULES

1 px INK outline on every panel, slot and icon. Light from top-left: bevel light on top/left, shade on bottom/right. No gradients, no glow, no soft shadows. HUD backplates use baked alpha (Char 0 at 170). Gold is for focus, titles and rewards only - never body text on dark backgrounds longer than a title.

B. UI TYPOGRAPHY

Press Start 2P (already in Assets/Art/Fonts). 8 px glyph cell. Size = 8 x integer only.

SCALE

TITLE x2 - VICTORY

HEADER x1 - QUESTS, BAG, WAVE 2/4

Body x1 - The road starts here.

Info x1 - CLEAR WAVES CD 5s

Muted x1 - 7/25 SLOTS v1.0

TREATMENTS

PANEL: 1px ink drop shadow

PARCHMENT: dark, no shadow

WORLD: full ink outline

GOLD BUTTON: dark text

Line height 11-12 UI px. Max ~32 characters per line in portrait windows. Keep labels upper case; sentences in sentence case.

IN-GAME NUMBERS (DYNAMIC, UNITY)

18 26 42 x12 HITS

Goblin Lv.3

Mira CYCLOPS Lv.8

Damage: white normal, gold strong/finisher (existing DamagePopup). Combo 'xN HITS' gold x2 + white x1. Mob names white, NPC names gold. Never bake numbers into sprites.

COLOUR BY ROLE

- Titles, selected, currency
- Body text on dark
- Info, objectives, tips
- Labels, disabled, hints
- Text on parchment / gold
- Positive (+EXP, done)
- Warning, boss, danger

C. SPACING, GRID + LAYOUT

All sizes in UI px. Portrait canvas 288x512 (x2). Landscape canvas 640x360 (x3).

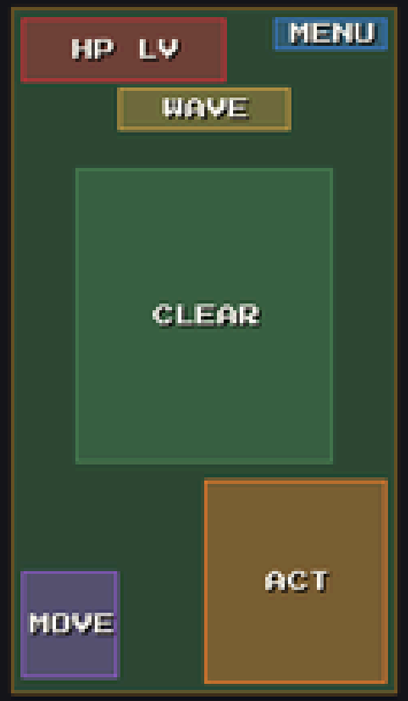

SPACING SCALE

Safe margin 8. Panel padding 12 (main) / 9 (popup) / 5 (tooltip). Gap between buttons 6-8. Touch target >= 22 UI px (44 px at 576 wide). Attack 56, skill 38, interact 40.

SCALING

Unity CanvasScaler: Scale With Screen Size, reference 288x512 (portrait profile) and 640x360 (landscape profile), match = height (portrait) / 0.5. Keep integer scale where the device allows (576x1024 x2, 1080x1920 x3.75 -> pixel snap). Sprites: PPU 16, Point, no compression, Pixels Per Unit Multiplier 1 for sliced images.

PORTRAIT 9:16

LANDSCAPE 16:9 (R CORNER, SKILLS CENTRE)

Anchors: top-left (HP), top-centre (wave/objective/boss), top-right (menu, map, bag, coins), bottom-left (joystick, mobile only), bottom-right (attack + skill arc, mobile) or bottom-centre hotbar + R corner (PC). Centre 60% stays clear for hero, mobs and VFX.
